

## **The Vienna Chapter of the INMM 4<sup>th</sup> Quarter Report to Executive Committee**

This report covers October 2016 to December 2016. Officers of the Chapter are given below.

### **Science and Engineering Fair: Planning Meeting**

On **November 10<sup>th</sup>**, the Vienna Chapter met to discuss the next steps in planning the 2017 Science and Engineering Fair with the theme “Space and Sea- Exploring new heights and depths.” It was noted that it is particularly important that all the Chapter’s Officers have a good understanding of the planning process, given that John Kinney, who had lead the planning for many years, will be retiring next year. At the meeting, it was decided that the 2017 Science and Engineering Fair will take place on March 25<sup>th</sup>, 2017 at the Lycée Français in Vienna, and that the first step will be finding volunteer liaisons for each school in the Vienna area from amongst the Chapter. These liaisons will meet with Fair organizers in early 2017 to begin outreach to schools in Vienna.

### **International Conference on Nuclear Security: INMM Exhibition**

On **December 5<sup>th</sup>-9<sup>th</sup>**, the IAEA hosted the 2<sup>nd</sup> International Conference on Nuclear Security: *Commitments and Actions*, for which INMM was a cooperating organization. The Vienna Chapter supported the event by staffing an exhibition booth as part of the Conference, at which conference participants could pick up a brochure and learn about the 2017 Annual Meeting. On Wednesday, **December 7<sup>th</sup>**, INMM President Corey Hinderstein, and Past President, Larry Satkowiak, met with INMM Members at the Conference to take a group photo.

*INMM Exhibition Booth at the International Conference on Nuclear Security, 5-9 December 2016*

*INMM President, Corey Hinderstein and Past President, Larry Satkowiak, with INMM Members at the Nuclear Security Conference.*
